

A young girl with curly hair in pigtails, wearing a green dress and a blue backpack, is smiling and holding the hand of an adult wearing a red and black plaid shirt. The background is a blurred outdoor setting.

# We Care for Kids

Quality Early Childhood Education  
For All Nebraska Families

## Quality child care helps Nebraska work.

With more than 72% of Nebraska children under age 6 living in homes where all adults work, child care is crucial to the state's economy. Child care and early learning programs support working parents on the job, allow businesses to recruit and retain talent, and help Nebraska's future workforce develop skills for long-term success in school and life.

To support the economic vitality of Nebraska families, businesses, and our economy, parents, employers, and government must come together to create effective, community-driven solutions that strengthen Nebraska's child care and early learning programs.
